Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

Claims 32-36 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claim 32 now recites the adapter being "integral" to a bag-in-box container. The is not supported anywhere in the specification and would not enable the adapter to operate properly (i.e. rotate).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 32-34 and 37-39 are rejected under 35 U.S.C. 102(e) as being anticipated by Rutter et al.

In regard to claims 32, 33 and 37, Rutter et al. further comprise an "adapter" 103 having an "upper end portion" 107 and a "lower end portion" 111 being rotatable and

secured on its inside as seen in Figure 3; and "collar" 111 includes a "ridge" 219 protruding outwardly therefrom with respect to the upper portion 201 of "collar" 111, as claimed. Further, the device is capable of delivering or supplying liquid.

In regard to claim 34, see "hold-down member" 117 and "rotatable collar" 111 in Figure 2.

In regard to claim 38, see column 5, lines 49-52.

In regard to claim 39, see column 5, lines 52-56.

Allowable Subject Matter

Claims 1-31 are allowed.

Claim 41 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments filed 3/14/05 have been fully considered but they are not persuasive.

The Stricklin et al. reference has been withdrawn and any arguments with respect to Stricklin are moot.

In response to Applicant's arguments with respect to the Rutter reference, Applicant's attention is directed to the amended rejection above and the following.

In regard to Applicant's argument that the dispensing member isn't integral, see the 112 rejection above.

In regard to Applicant's argument that ridge 219 is not extending circumferentially outward, it is all base upon one's perspective and it has been addressed above.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
